September 25, 2025

Dear Colleague,

Once again, I'm hosting my annual Breast Cancer and Prostate Cancer Awareness event and would love to have you join me on Saturday, October 4, 2025, from 11:00 a.m. until 2:00 p.m. The event will take place at Spring Hill Park – 757 Lower River Road Covington, Georgia 30016. Last year our event was a great success and drew people from all corners of Georgia. We can't wait to return this year and spread the word of early detection to even more people!

We were able to share stories from individuals whose cancer was detected early which led to them being successfully cancer free. Each of these individuals now share in the mission of spreading the word and encouraging individuals to be tested on an annual basis. Annual and early testing truly saves lives!

We support breast cancer and prostate cancer survivors and show our love to those going through cancer treatment. As we raise awareness all year long, we remind our loved ones and friends to prioritize their health and take care of themselves. As a survivor, I cherish the time to raise awareness for early detection.

In an effort to create legislation that supports early detection of breast cancer and prostate cancer, I introduced House Bill 937 (**Medicaid; coverage for annual mammograms at no cost to recipient; provide**) which was signed into law by Governor Brian Kemp on May 6, 2022. I also introduced House Bill 384 (**Insurance; annual notification by insurers to male insureds of coverage for prostate-specific antigen tests; provide**) which was signed into law by Governor Brian Kemp on April 23, 2024. These pieces of legislation could not have been passed without your support for which I am very appreciative.

I appreciate each of you and hope that you can attend.

With warmest regards,

*Sharon Henderson*
